Attn. Mr. Amjad Salameh-Project
Manager,

Project : Extension of Al Wathba Fish Production Farm-Stage 1
Subject : Material Submittal for Epoxy Flooring and Tanking - Rev.1.

Dear Sir,

We refer to your letter ref. CGC-C037-AS-397/20 Dated 06 January 2020 regarding the Material Submittal for Epoxy Flooring and Tanking - Rev.1 we have reviewed the above subject and found acceptable subject to the following comment.

1. Based on the latest results the proposed material found acceptable to be used for the floor slabs and upstands at Fish and Prawn facilities.
2. Seal coat (4-6 mm thick) may not require since the poly carbonate roof replaced by sandwich panel, Engineer reserve the right of cost saving pertaining to subject item.
3. Approved subject to conformance with Contract Document and local authority regulation.
4. For the internal surface of the tanks, the Contractor to propose GRP lining system as per the Fish Farm specialist requirements.

Hence we return the above subject Material Submittal for Epoxy Flooring and Tanking - Rev.1 with "Code B" subject to the above comment.

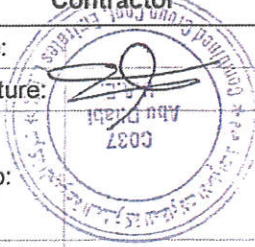

Yours faithfully,

Khalid Khan
Resident Engineer

SUBJECT: Ecorelease 2 Mould Release Agent (For Precast Elements) SUB. REVIEW REF. REVIEW / APPR. STATUS:

Comments by: <u>Arnold Monteroso (Sr. Project Engineer-Structural)</u>	
1.	Color indicated in the technical data sheet is pale yellow. Specification requires form release agent should not affect the appearance & discolor the finish concrete. TCA-JV supplier to confirm.
1	Comments by : <u>Asher Sharif (Sr. Project Engineer-Structures)</u>
2	Confirm suitability of the subject release agent with other admixtures that are used in the concrete works.
3	Confirm temperature limits for material's usage.
4	Check concrete mix setting out time and verify concrete strength before removal of any part.
	Abu Dhabi Chamber license to be updated.

Approved	Approved As Noted	Revise and Resubmit	Rejected	For Information

Serial No.	Comments and Recommendations
1.	The Contractor and subcontractor to strictly follow the Manufacturer recommendation as per the MSDS reflected on the Method Statement submission for Engineer review and approval.
2.	The Contractor to raise IRA for the repair area prior for any application.
3.	The Contractor must provide mock-up with random test sample for testing chosen by the Engineer as installed to its final location and repair consideration.
4.	The Contractor to consider holes cleans properly, depth of embedment, installation, time of curing etc. which is required by the Manufacturer.
5.	We note that the application of this material by the Contractor or his Subcontractor at his full responsibility and cost.
6.	Proper application and curing of the applied repair materials.
7.	- Missing activity ID and Start date to be added in the submittal. - Missing data on material submittal checklist to be added as marked. - Other comments as marked on the submittal.
8.	The Engineer's decision above does not relieve the Contractor from all the Contract obligations and responsibilities against specification, plan, etc. which requires action and commitment.
